Sentinel-5P  
13 October 2017

“Many parts of North America and Europe provide daily broadcasts of air-quality forecasts. But across much of Asia, Africa and South America, smog still arrives unannounced. Predictions require advanced computer models and regional weather forecasts; both are lacking across the developing world.”

6 September 2018

Monitoring

# BROADENING COPERNICUS AUDIENCE

There is an estimated audience of 18.8 million people for the daily Euronews CAMS air quality bulletins and the C3S monthly climate updates.

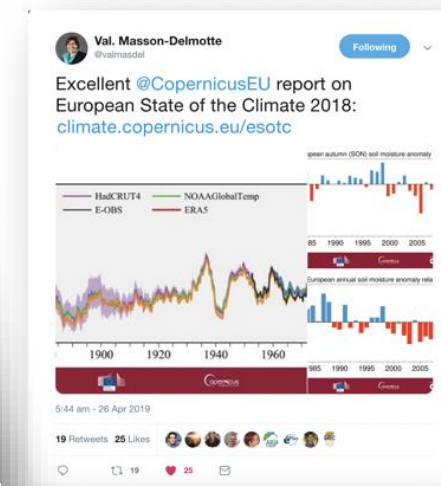

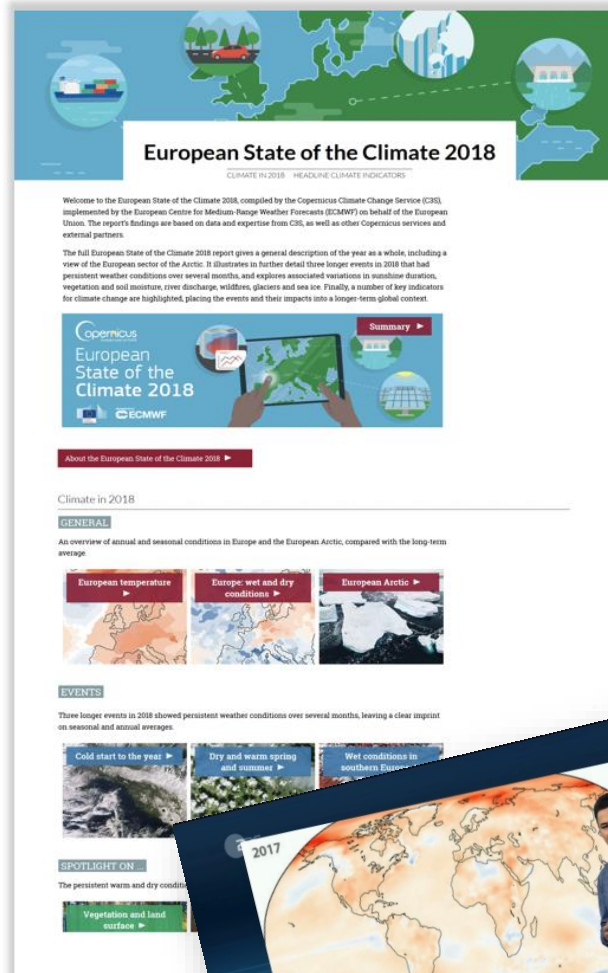

Climate

# 2018 WILDFIRE ACTIVITY

Much above average fire danger across northern, central and eastern Europe

*CEMS Fire danger classes*

## *North EU*

## *South EU*

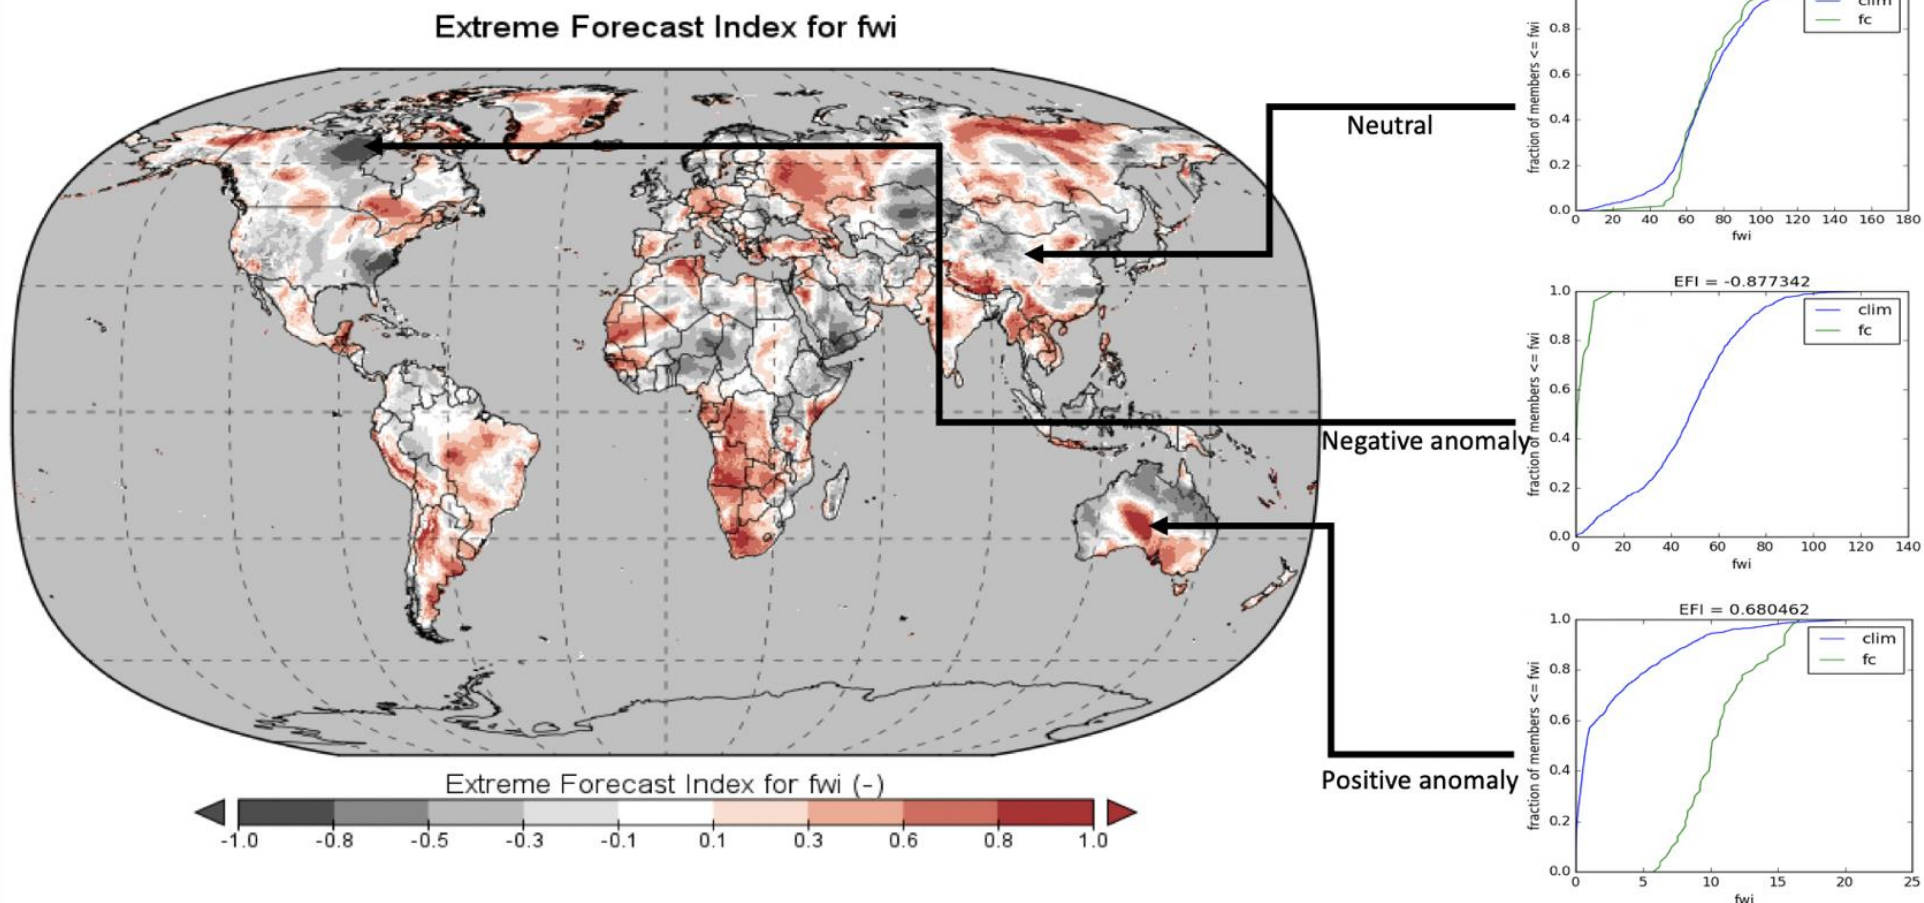

*CAMS area weighted fire emissions*

Emergency  
Management

## PROTOTYPE PROBABILISTIC FIRE FORECAST PRODUCT

The extreme forecast Index for the FWI compares the model climate distribution with the ensemble prediction providing an indication of anomalous conditions.

**Legend:**

- Fatalities
- Affected people
- Injuries
- Displaced people

**Source:** Government of Malawi, UN Resident Coordinator for Mozambique, DG ECHO

**TC IDAI Path and Wind Data:**

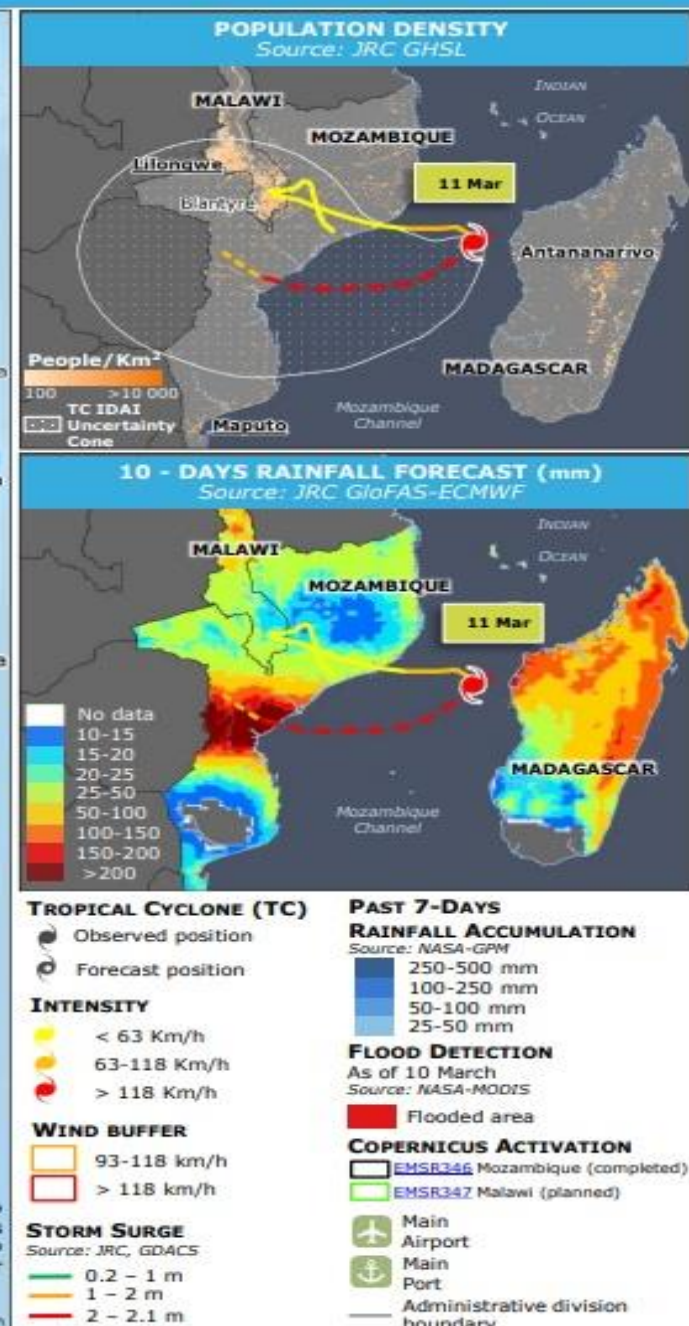

- 11 Mar 12.00 UTC:** 194 km/h sust. winds
- 12 Mar 12.00 UTC:** 231 km/h sust. winds
- 13 Mar 12.00 UTC:** 222 km/h sust. winds
- 14 Mar 12.00 UTC:** 194 km/h sust. winds
- 15 Mar 12.00 UTC:** 139 km/h sust. winds
- 16 Mar 12.00 UTC:** 83 km/h sust. winds

**Casualty Statistics:**

- Malawi:** 28 Fatalities, 124 Injuries, 226 Affected people, 560 Displaced people
- Mozambique (Southern Region):** 6 Fatalities, 18 910 Affected people, 3 110 Displaced people
- Mozambique (Other):** 4 Fatalities, 43 205 Affected people, 6 542 Displaced people
- Zimbabwe:** 860 Displaced people

**Geographical Labels:** ZAMBIA, MALAWI, TANZANIA, MOZAMBIQUE, ZIMBABWE, SOUTH AFRICA, SWAZILAND, COMOROS, Mayotte (FRANCE), MADAGASCAR, Antananarivo, Indian Ocean, Mozambique Channel, French Southern Territories.

- Glaciers elevation and mass change data from 1894 to 2014 from the Fluctuation of Glaciers Database**  
A glacier is defined as a perennial mass of ice, and possibly firn and snow, originating on the land surface from the recrystallization of snow or other forms of solid precipitation and showing eviden...
- Glaciers extent data from 1995 to 2015 from the Randolph Glacier Inventory**  
A glacier is defined as a perennial mass of ice, and possibly firn and snow, originating on the land surface from the recrystallization of snow or other forms of solid precipitation and showing eviden...
- Methane data from 2002 to present derived from satellite sensors**  
Methane (CH<sub>4</sub>) is the second most significant greenhouse gases that has increased in concentration in the atmosphere directly due to human activities, from the viewpoint of the radiative forcing of cli...
- Sea surface temperature daily gridded data from 1991 to 2010 produced by ESA-CCI**  
This dataset provides daily values for sea surface temperature and sea ice fraction over a regular grid with no missing values in space or in time. The initial satellite data from the Along Track Scan...
- Water quality indicators for European rivers**  
This dataset contains modelled data for phosphorous and nitrogen concentrations and loads. The data comes from the Swedish Meteorological and Hydrological Institute E-HYPE model at catchment level f...
- Water quantity indicators for Europe**  
This dataset contains modelled data for water runoff and wetness, river flow, snow water equivalent, soil water content and other water related quantities for the European region. These variables wer...
- CMIP5 daily data on pressure levels**  
This catalogue entry provides daily climate projections on pressure levels from a large number of models, members and time periods computed in the framework of fifth phase of the Coupled Model intercomp...
- CMIP5 daily data on single levels**  
This catalogue entry provides daily climate projections on single levels from a large number of experiments, models, members and time periods computed in the framework of fifth phase of the Cou...
- CMIP5 monthly data on pressure levels**  
This catalogue entry provides monthly climate projections on pressure levels from a large number of experiments, models, members and time periods computed in the framework of fifth phase of the Cou...
- Seasonal forecast monthly statistics on single levels from 2017 to present**  
Seasonal forecasts provide a long-range outlook of changes in the Earth system over periods of a few weeks or months, as a result of predictable changes in some of the slow-varying components of the s...

# CAMS HEAVYWEIGHT USERS

Copernicus products are now reaching millions of people worldwide

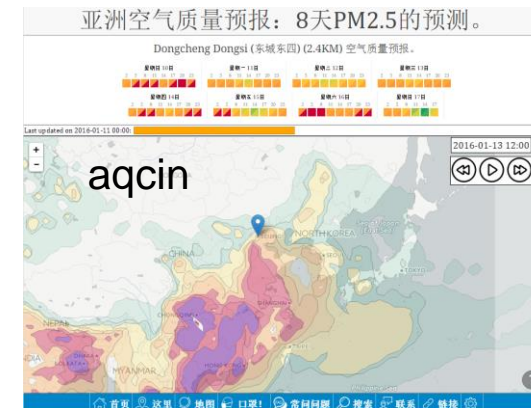

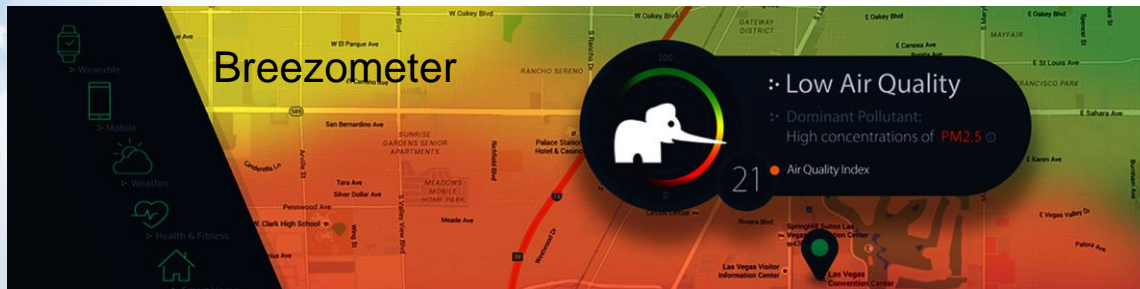

The  
Weather  
Channel

Plume Labs

"Helps with my day before  
I even leave the house"

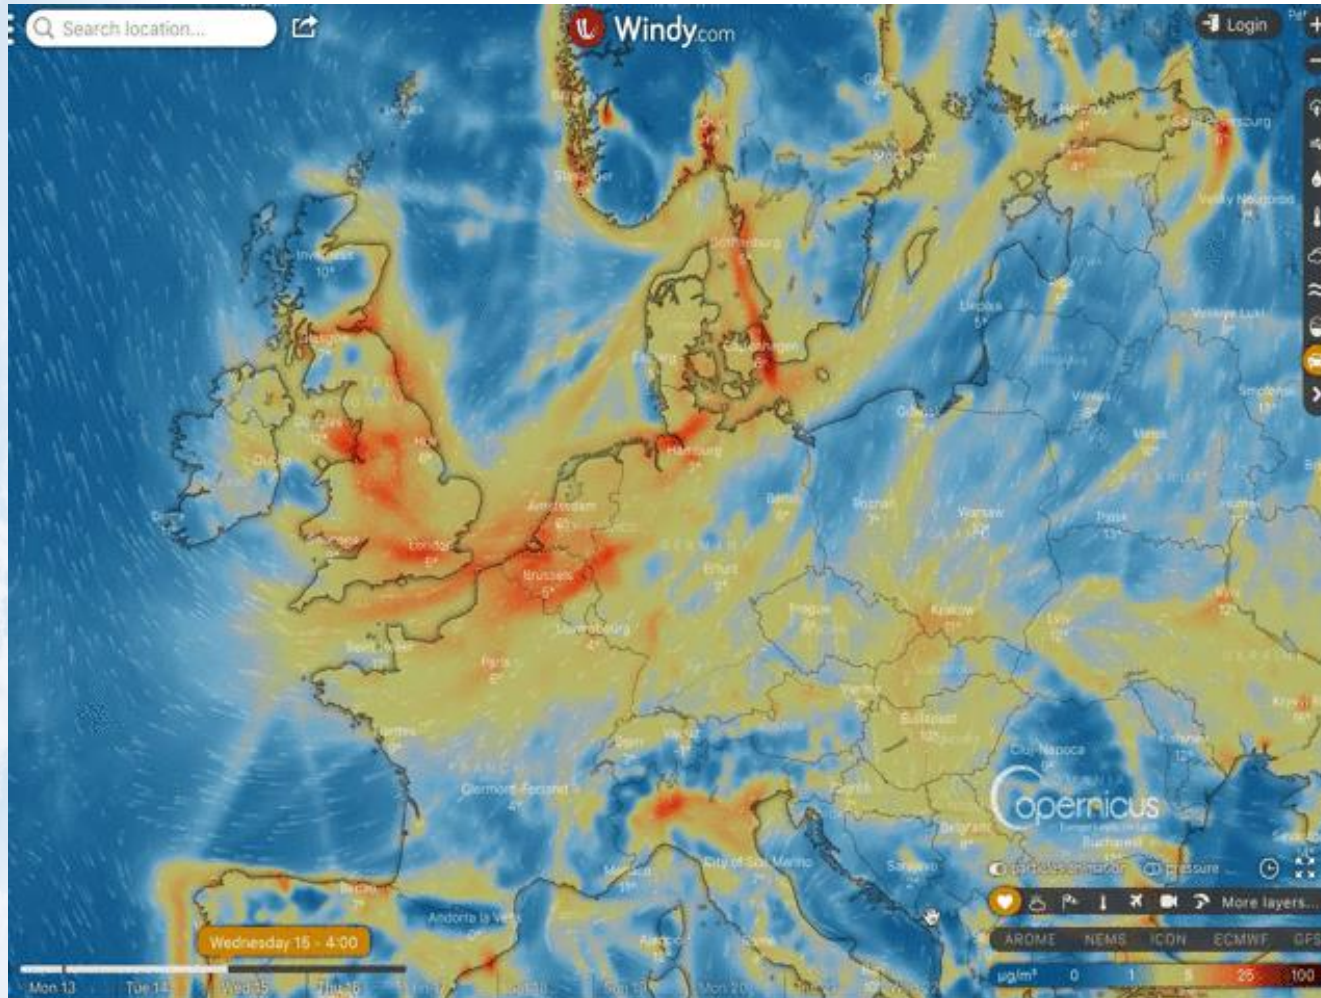

Discussions in progress

# KEEPING THE BEST FOR THE END

CAMS is available in Windy since the beginning of the month

- twice daily (based 00, 12) NRT global analyses and forecasts up to +120h, 40km resolution
- daily (based 00) NRT European analyses and forecasts up to +96h, 10 km resolution
- 4 layers, more to come likely
