Used Infrastructure

- ▶ Czech Mirroring (DataBio)
- ▶ Mundi Dias (EUXDAT)
- ▶ Sentinel Open Hub (Premia)

Czech Mirroring - DataBio

Mundi Dias - EUXDAT

Sentinel Open Hub - Premia

The screenshot displays the Sentinel Open Hub - Premia web application interface. The top navigation bar is dark red and contains the PREMIA logo (Platform for Risk Evaluation & Management in Agriculture), the user name "Raitis Be", and several icons for user profile, map, data, notifications, and sharing. A language dropdown menu is set to "English".

Below the navigation bar, there is a search bar and two tabs: "Analysis" and "Area". The main map area shows a satellite view of Italy and surrounding regions, with a blue polygon highlighting a specific area in the Ligurian Sea. The map is labeled with various geographical features and cities.

On the right side, a "Layer manager" panel is open, showing a list of layers. The "Filter" field is empty. The layers are organized into two main sections:

- Baselayers**: Includes "OpenStreetMap".
- Map Content**: Includes:
 - 1. Administrative boundary**:
 - Administrative boundary: Region level
 - Administrative boundary: Province level
 - Administrative boundary: Municipality level
 - 2. Corine Land Cover**:
 - Corine Land cover level 1

Analýza

- ▶ Czech Mirroring
 - ▶ + Rychlý otevřený přístup
 - ▶ - Historická data jen pro ČR, zbytek jen dva týdny
- ▶ Mundi DIAS
 - ▶ + Rychlý přístup všude
 - ▶ - Drahé, vše je ve vývoji
- ▶ Sentinel Open Hub
 - ▶ + Otevřená data všude
 - ▶ - Extrémně pomalé

Naše doporučení (v současné době)

- ▶ Czech Mirroring
 - ▶ Pracujete pouze v ČR
 - ▶ Nepotřebujete historická data
- ▶ Sentinel Open Hub
 - ▶ Nepotřebujete naráz velké množství dat
- ▶ Mundi DIAS
 - ▶ Potřebujete silnou infrastrukturu a nezáleží vám na ceně

Děkuji za pozornost
